THE TIPI

But what is Trade-O-Ree?

Trade-O-Ree is an event put on by the Lodge's Finance subgroup. Anyone who is interested in selling/buying/trading patches from the lodge, the section, or even from across the nation can come out and look for some cool patches of all different styles. This event is perfect for experienced patch traders, as well as any new members who want to learn more about patch trading!

But what is patch trading?

Patch trading is one of the most popular activities in the Order of the Arrow. Each lodge produces patches that are then sold to its members. You obtain patches from other lodges by trading with other members of the Order. It's like an internal game to see who has the best set and can get every piece!
